

# TIPS FOR PROVIDERS

To support children's learning at home you may wish to share the 'Northumberland Learning Together at Home Pack'.

Resources will be released each week by the Northumberland Early Years Team via Facebook and the Early Years Update. You may wish to share the activity sheets with parents/carers via email, WhatsApp, online learning journal platforms or as a paper copy. Sharing it electronically means parents are able to access the links more easily and also use the voice recording option rather than reading through the whole document. To access the voice recording, parents can click on the 'speaker' symbol at the top of each page.

If you use electronic methods of communication you may want to ask parents to send pictures or weekly updates about their child. This could be in relation to the activities provided or additional learning opportunities that the parent and child have carried out together.

Of course, you may wish to provide additional activities and ideas to support parents with home learning. Other easily accessible resources will also be shared, along with links to the online resources, so parent/carers and children will have plenty to choose from to keep them busy!
